

Roller WizardTM

paint roller power washer

- **Saves Time**

Cleans & dries rollers in minutes
Allows for fast color changes

- **No Mess**

A self contained paint roller cleaning system
No splattering walls, sink or clothing

- **Saves Money**

Reuse professional quality rollers again & again. Reduces risk of paint damage to clothing and furniture

- **Professional Painting Results**

The key to a professional paint job is a professional quality roller. Quality rollers result in a smoother finish, have better coverage, hold more paint and leave no lint behind. The Roller Wizard restores rollers to like-new condition.

U.S. Patent #6,019,111

Cleans & Dries Paint Rollers in Minutes

www.rollerwizard.com

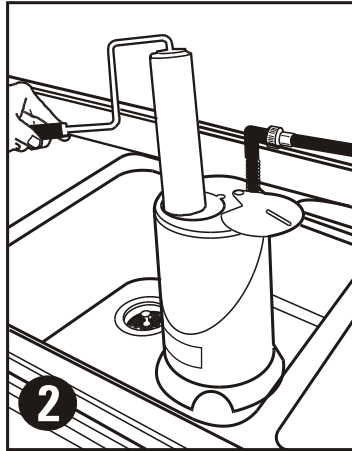

Model RW-100

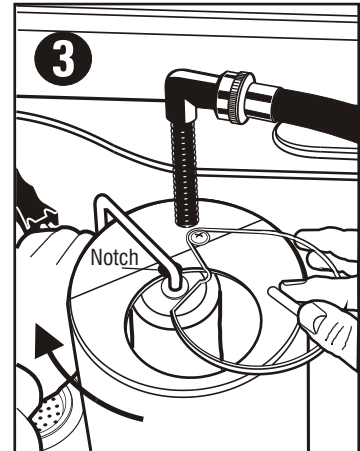

How it works

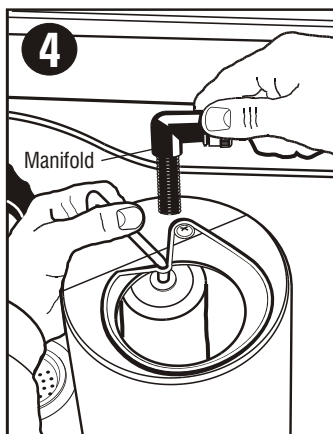

1 Attach the hose from the Roller Wizard to the faucet.

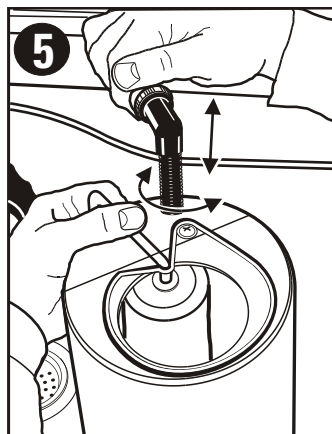

2 Open lid and insert roller sleeve into Roller Wizard.

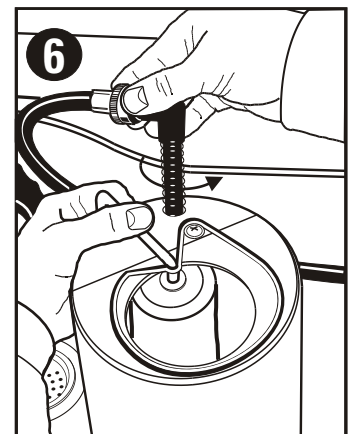

3 Rotate roller handle until it fits into the notch and close lid.

4 Turn water on. Rotate manifold until roller starts to spin.

5 Slowly move manifold down and up. Rotate manifold to reverse spin of roller. Repeat until rinse water is clear.

6 To dry: Rotate manifold to achieve maximum clockwise spin. Quickly rotate manifold counter-clockwise to defect water from roller. Roller sleeve will spin dry. Roller is now ready to store or use again.

90 Day Limited Warranty
